

Connective Bodywork

A Psycho-Physical-Spiritual Approach
to Massage Therapies & Structural Bodywork

*This highly experiential, professional skills and personal development training,
can greatly enhance your effectiveness with clients, and your relationship with life.*

Connective Bodywork (CB) is a synthesis of many styles of Bodywork with Presence Centered Awareness, Psycho-Therapeutic skills and Spiritual Awareness practices. Working in a way that includes the connections between Body, Mind, Heart, and Spirit, produces a dynamic and often profound healing and 'growth-ful' environment. As well as being an enjoyable process, CB can enhance relaxation, reduce pain, improve function, resolve past grief and other emotional pains, bring insights to the very nature of our being, and help foster an increase in well-being on all levels, for client and therapist.

You will learn theory, skills, and methods, practicing Relaxation and Therapeutic Sessions in the following modalities: Swedish Massage and Stress Reduction, Neuro-Muscular Therapy, Connective Tissue Massage, Myo-Fascial Connective Tissue Therapy, Reflexology, Structural Therapies, 10 Session Structural Bodywork, Energy Therapies, Specific Pain Reduction Treatments/Rehabilitation, and Corrective Movement, while integrating awareness, communication skills, and counseling practices to help work with life issues of the body, mind and heart.

Classes are a blend of personal growth opportunities, discussions, experiential Anatomy & Physiology, technique and session demonstrations, Successful Business Practices, Awareness and counseling practices, and giving and receiving many CB sessions. Due to the accelerated nature of this training, most students have found it essential to allow for outside class time for study, practice and integration each week, in addition to class time.

As we touch into the depths of our Being, we experience presenceful peace, unconditional love, and joy. Through the use of specific therapeutic touch, language skills, and our deepening presence, we can help access consciousness and create healing pathways into our deepest core. As pathways into the 'heart of Being' become more clear, we become more relaxed in a way of living that supports and nurtures the whole, integrated self.

PRIMARY INSTRUCTOR:

Lee Joseph, MS, CH, RMT. For over 30 years, Lee has been teaching and helping people open into a richer presence with themselves and others. Former owner/Director of the Florida School of Massage, he has also helped start numerous other Healing Institutes. In 1990 Lee founded the Pacific Center for Awareness & Bodywork, in Hawaii, where he and his partner, Carole, currently reside, teach, and co-direct.

Lee integrates his interest in Psychology, Advaita Inquiry, Meditation, and many other consciousness and Psycho/Spiritual teachings, with touch therapies, in classes and private work.

A Licensed Massage Therapist, Certified Clinical Hypnotherapist, and developer of Awareness Oriented Structural Bodywork, Lee offers a profound and effective way of accessing consciousness through Bodywork. His classes focus on the whole being - body, mind and spirit, in a relaxed, safe, and loving environment.

Other Instructors are included during specific areas of study.
